

Your health insurance card

If you visit the doctor or dentist or need to go to hospital, you will be treated upon presentation of your health insurance card.

You will receive the health insurance card at the start of your insurance cover by the company health insurance fund. For this purpose, we require a passport photo on which your face is clearly recognisable.

Your photo for the health insurance card

There are various ways in which you can send us your photo:

- 1) You can affix your photo for the health care card here and send it back to us together with your registration. Please fill in ...

Surname
First name
Date of birth

Please affix
the photo here
approx. 45 x 35 mm
colour or
black and white
neutral background

- 2) Alternatively, you can initially just send us the registration for the company health insurance fund and e-mail the photo later to bkk.info@db.com.

- 3) Another option is to use our "photo portal", which can be found on our homepage: www.bkkdb.de/en/card.htm. Unfortunately, only a German-language version of the portal is available.

We can only issue a health care card and send it to you once we have received your photo. Until then, when sending you the confirmation of your insurance with the company health insurance fund, we will provide you with a billing slip, which a doctor can also use to invoice us.

Health insurance card for your family members

If you have family members that are also to be insured through the company health insurance fund, we also require photos of them so that we can issue them a health insurance card each. For children, however, we only require photos for those aged 15 or older.
